

Emotion Workshop Program

Business Plan and Entrepreneurship

July 5th -16th 2021

IDiBE institute, Avda. Universidad s/n Torregaitan building, UMH, Elche

This workshop has two well-defined parts, one of them consists of a series of talks by professional entrepreneurs, with examples of success stories and failures.

The other part is the presentation of your business plans that you have elaborated from the knowledge acquired throughout the master in the different subjects. The members of the jury will ask you questions and give you suggestions to improve them, if necessary.

The members of the jury are:

Marta Garcia, CEO of Prospera Biotech, and expert in neurocosmetics development.

Philipp Tsolakis (Managing Director, Champalimaud Research) expert in finance and business plans, he was CEO of the company Altalgenics for 5 years and recently he is the Managing Director of the Champalimaud Foundation.

Antonio Parente, founder of several successful companies and follows participating in the creation of new biotechnology-based companies ranging from the world of cosmetics to the world of cancer drugs.

I hope that all of them can give you good suggestions for your future as entrepreneurs.
